SUMMARY

A recent Coding Academy fullstack bootcamp graduate with background in programming and a passion for problem solving, learning and using creativity to develop efficient applications. My training has given me strong background in languages such as **JS**, **HTML** and **CSS**, as well as confidence in frameworks such as **Vue**, **React**, **Angular**, **Express** and **NodeJs**. I am well acquainted with **MongoDb** and **MySQL**. Other expertise include **MVC**, **SPA**, **PWA**, **SSR**, **OOP**, **SASS**, working with **Git branches** and more. Experience in other fields has taught me to adjust, work in a team, take initiative and perform under stress. I am eager to prove myself, improve and create high quality products.

Check out my final project - a Monday clone built using Vue, NodeJs, MongoDB (Atlas), sockets and SASS.

WORK

Music instructor and educator2021 - 2022
Montessori-Forest elementary school

Developed by Dr. Maria Montessori, this educational method emphasizes independence, self-direction, and hands-on learning.

- Lead instructor and educator.
- Worked with children with special needs, their therapists and parents.
- Had to adjust myself and the classroom to fit all types of needs.
- Worked in a team of 2 other educators, handled Pedagogical manager requests and come up with personal program for each child.

Music instructor, teaching assistant and educator2019 - 2021
A.D. Gordon elementary school

Having no prior related experience, I had to learn how to meet the requirements. On my second year I was promoted to primary educator and head of music department.

- Organizing musical events.
- Writing and adjusting arrangements according to children's abilities.
- Mapping children's level at different aspects (such as social, personal etc).
